Sando described his efforts to attract companies that deal with UAS systems into the area, and said not all would fit in well with the Innovation Center or Grand Sky development. He said there is the potential to have one or more UAS companies use GFK's (old FedEx) sort facility, and one company in particular might be interested in renting a portion of the facility for showroom purposes. The idea would be to divide the building into smaller

sections, for similar possible tenants. After reviewing the one company's potential plans, the Board's consensus was to move forward with discussions.

2. FAA System Support Center (SSC) Lease Agreement

Airport staff negotiated a new lease agreement with the FAA for the FAA System Support Center (SSC) that would increase the rent by \$17,657.20 per year to help offset some of the maintenance and operating costs of the building. 2. Section 10.01 - Notice of Termination was amended as follows: "Lessee acknowledges that it is the Authority's present intent to redevelop the general area of the Airport where the Leased Premises are located and that such redevelopment would necessarily involve the demolition or relocation of some or all of the buildings and other improvements upon or

serving the Leased Premises. As of the Effective Date, the extent of redevelopment and the timeframe for commencing and completing such redevelopment have not been finally determined. Accordingly, notwithstanding any other term or condition of this Lease to the contrary, Lessor and Lessee shall each have the right to terminate this Lease, in its entirety or as to any one or more of the tracts of land comprising the Leased Premises, without cause, at any time, upon thirty (30) days' notice to the other. Such termination shall be effective at the end of the calendar month first succeeding the thirtieth day following the date of notice. The nondiscrimination language in the amendment has been approved by the FAA Office of Civil Rights. The current On-Airport Car Rental Concession Agreements each contain a provision requiring the Operator and the Authority to modify or amend the Concession Agreement to bring it into strict compliance with the Authority’s obligations as an airport sponsor under its grant assurances.
