NOTICE TO PUBLIC

Date: April 26, 2022

Notice is hereby given to the public that the Grand Forks Regional Airport Authority intends to submit an application to impose and use to a Passenger Facility Charge (PFC) at Grand Forks International Airport. The proposed effective date is August 1, 2022, with an expiration date of February 1, 2027. The total collection is expected to be \$2,100,000 based on a PFC of \$4.50 per enplanement.

PFCs are being collected to purchase 2 items:

- 1500 Gallon ARFF Truck – to improve the safety, efficiency, reliability and emergency response capabilities of the airport. This project will replace a 2004 E-One 1500 Gallon ARFF Vehicle that is beyond its useful life and unreliable.
- Passenger Terminal Backup Generator – to improve the emergency electronic backup capability in the passenger terminal building and reduce the impact of an electrical outage by allowing for normal operations to continue even in the event of a complete power failure. This will replace a generator that is too undersized to allow for passenger processing and screening operations during a power outage. We have experienced power outages recently that have caused all commercial passenger operations to be cancelled due to lack of adequate power backup.

Comments should be addressed to Tanna Aasand, Director of Finance, Grand Forks Regional Airport Authority, 2301 Airport Drive, Grand Forks ND, 58203, taasand@gfkairport.com no later than May 25, 2022.
