D. New Business

1. **Sale of Hansen Lease & Rental to Overland West**

   Hansen Lease and Rental (Hansen) currently has a concession agreement with the Grand Forks Regional Airport Authority to operate the Hertz Rental Car station in the terminal building.

   The Airport Authority has received correspondence from an attorney representing Hansen that they would like to have their existing concession agreement assigned to Overland West, as Overland West is in the process of purchasing Hansen. We have also received a letter from Overland West requesting the same. The Overland West letter states they will “uphold the concession agreement as it is currently written”.

   The GFRAA Attorney and Staff have reviewed their requests and agree with assisting in the assignment, however the assignment paperwork has not yet been produced, and the parties are wanting to complete the purchase transition in February.

   The Executive Director made his recommendation, and a motion was then made by Malm and seconded by Kuhlman to authorize the Executive Director to execute the assignment paperwork, subject to prior review and approval by the Airport Attorney. **Action taken:** Motion carried unanimously.

2. **ARFF Building Change Order #2**

   ARFF Building Change Order #2 became time sensitive in December, 2015. This Change Order related to the decision to install epoxy flooring in the ARFF stall bays to minimize the chance for slip and falls, and was approved by Staff with Board Chairman’s consent on December 11, 2015. Note that there was not an Airport Board meeting in December. The amount of this Change Order is $23,109.00. Change Order #2 was determined to be AIP eligible.

   There was a motion by Mutchler to ratify ARFF Building Change Order #2, and a second by Meland. **Action taken:** Motion carried unanimously.

3. **Change Order #3 for the ARFF Building Construction Project**

   ARFF Building Change Order #3 is in the amount of $80,978.00. There are two primary cost items associated with this Change Order:

   Item #10 – Generator Feed (Emergency Power), $23,687.00 – All conduits were found to be full so new conduits had to be directional bored. Item #11 – Electrical Reroute, $35,177.00 – Wiring needed to be reconfigured to enable the new transfer switch in the new ARFF Building.

   KLJ’s Steve Synhorst was in attendance to answer questions about the Change Order. Change Order #3 was determined to be AIP eligible.

   It was moved by Meland, seconded by Mutchler, to approve ARFF Building Change Order #3 and authorization for the Executive Director to sign the required documents. **Action taken:** Motion carried unanimously.

Comerica Bank, the lender to Avflight Corporation and its subsidiaries (including Avflight Grand Forks Corporation), requires that each Avflight subsidiary grant to Comerica a mortgage lien on the subsidiary’s leasehold interests in its facilities at each airport. This requires the Airport Authority’s consent to a Continuing Collateral Leasehold Mortgage upon Avflight Grand Forks Corporation’s leaseholds at the Grand Forks International Airport. Avflight Grand Forks Corporation’s leases identified in the Comerica Leasehold Mortgage each permit a leasehold mortgage subject to specified conditions. These conditions have been included in Section 5 of the Consent to Mortgage of Leasehold Interest and are consistent with the conditions contained in Avflight Grand Forks Corporation’s lease agreements. There is an additional $350,000 in our 2016 Local CIP Budget for Building Demolition of the Old SRE and ARFF/Ops structures. Too much rain has caused soggy ground conditions and has made progress slow for the East GA Development Project. KLJ Engineering has been exploring options for soil stabilizers and one option is to install lime material. Tim Mutchler made a motion to approve Change Order #2 in an amount not to exceed $100,000, subject to FAA approval and funding eligibility, and authorize the Executive Director to execute the required documents to install soil stabilization material for the project. Mutchler’s motion was seconded by Meland. After some discussion, Kuhlman moved to amend the motion to add an additional $10,000 to cover testing by Northern Technologies (or other soil engineers) before installing the material to make sure it will work. Mock seconded the motion to amend the first motion. Mutchler accepted the amendment to his first motion, as did Meland. **Action taken:** The amended motion to approve Change Order #2 in an amount not to exceed $110,000, subject to FAA approval and funding eligibility, and authorize the Executive Director to execute the required documents to first test, and upon successful testing, install soil stabilization material for the project, was approved unanimously.

5. UND Helicopter Apron Expansion

As part of their ongoing apron rehabilitation and reconstruction project, the University of North Dakota is proposing to expand a portion of Apron C to the south to provide a larger area for their helicopter operations. This area is designated for future UND expansion on both the Airport Layout Plan and the current Master Plan. The requirements contained in the Current “Consolidated Lease Agreement” between the Airport Authority and UND, dated October 19, 2009 will be in full effect and the current ground site agreement with UND would need to be amended to add the additional space. It was moved by Mutchler and seconded by Kuhlman to approve the expansion as proposed. **Action taken:** Motion carried unanimously.

The meeting adjourned at 9:25 a.m.

C. New Business

1. East GA Development Project – Change Order #3
   Change Order #3 for the East GA Development Project allows for a realignment of the movement/non-movement boundary line from Apron C to Taxiway C2, and provides for the associated airfield signage and marking changes. As the UND Apron and East GA projects have progressed, it became apparent the proposed changes would reduce potential confusion in the new intersection area. UND, FAA Certification, FAA Airport District Office (ADO), and the Air Traffic Control Tower agree with these changes. Given that UND’s Apron and our East GA projects are currently in progress, and Strata is the contractor for both, we could agree that UND’s project would pay for some of the items, and the Airport project would pay for others, as follows:

To be completed under the UND Apron project:
   • Obliterate existing movement/non-movement boundary line on Apron C
   • Install new movement/non-movement boundary line on Taxiway C2
   • Remove existing lighted Taxiway C2 sign on Apron C
To be completed under the Airport East GA project:
• Remove and dispose existing Taxiway C2 sign foundation
• Replace three (3) lighted sign panels at the new intersection

The net cost of Change Order #3 for the East GA project is $1,864.30. This amount is eligible for FAA Airport Improvement Program (AIP) funding and has received FAA-ADO approval.

There was a motion by Meland, seconded by Mock, to approve Change Order #3 for the East GA project, and authorization for the Executive Director to execute the required documents. **Action taken:** Motion carried unanimously.

2. **FedEx Offer Approval**

This item was removed from the agenda until more information can be obtained.

3. **2017 CIP Review and Approval**

Airport Staff have been working with KLJ, the FAA Airport District Office (ADO), and the North Dakota Aeronautics Commission (NDAC) in the development of our five-year Capital Improvement Program (CIP). The projects listed in the CIP for 2017 have been included in the 2017 Budget, which was approved by the Board at the meeting in August. Board approval of the CIP is not an approval for all projects, as each project must be approved individually at the time. Instead, it would be an approval of the concept or plan for the next several years, and it is amendable as needed. It was moved by Malm, seconded by Beyer to approve the 2017 FAA CIP as presented. **Action taken:** Motion carried unanimously.

4. **Foreign Trade Zone (FTZ) Grantee Transfer Discussion**

The Grand Forks Regional Airport Authority (GFRAA) has been the designated “Grantee” of our local Foreign Trade Zone (FTZ) since 1995. The general role of the Grantee is to manage, organize, finance, maintain, and develop the zone. Over the years there have been several sites designated for our local FTZ, but they have been largely inactive. More recently, to better understand and utilize our FTZ, GFRAA staff have been working with the Grand Forks Region Economic Development (EDC) and the North Dakota Trade Office (NDTO). As part of this collaboration, earlier this year our FTZ received approval to become an Alternate Site Framework (ASF), meaning that an FTZ site can now be designated anywhere within Grand Forks County. This allows much greater flexibility to use the FTZ as an economic development tool. Staff of the GFRAA, EDC, and NDTO now believe it would be in the public interest to transfer the Grantee designation from the GFRAA to the EDC, as the purpose of an FTZ is to foster economic growth, and this most closely aligns with the EDC mission, talents, and interests. There was a motion by Beyer, seconded by Malm, to authorize the Executive Director to continue working with the Grand Forks Region Economic Development (EDC) and prepare the required documents to transfer the Grantee designation from the GFRAA to the EDC. A resolution of the Airport Authority Board would be required at a later meeting for final approval. **Action taken:** Motion carried unanimously.

5. **November and December Meeting Dates**

The November meeting was moved to the 3rd Thursday, November 17th, due to the Thanksgiving holiday on the 4th Thursday. The December meeting will stay on the 4th Thursday, December 22nd.
6. **Other – Resolution #01-16**

Wayne Wetzel, ARFF/Ops employee for over 27 years, was recognized with Resolution #01-16, extending appreciation for his dedication, pride, and service. His retirement date is October 31, 2016. An open house and a couple of employee gatherings were held/planned to help him celebrate.

C. New Business

1. Taxiway U Consultant Services Agreement

   Per our Capital Improvement Program, the Authority is planning to begin project design for the Taxiway U reconstruction project. KLJ intends to begin the design soon in order to be ready to bid in early 2017. The total cost of these services is $93,145.58. This cost is eligible for FAA (90%) and State (5%) funding.

   There was a motion by Kuhlman, seconded by Meland, to approve the Twy U Consultant Services Agreement with KLJ, and authorize the Executive Director to execute the required documents. **Action taken:** Motion carried unanimously.
2. FedEx Termination Agreement Approval

The Airport Authority has been in negotiations with FedEx to terminate its two lease agreements with the Airport Authority since May of 2016. The agreements are for use of Buildings and Ground Sites at the two following locations:

- Sort Facility – 2133 Air Cargo Drive; and
- Maintenance Facility – 2814 Airport Drive.

Early negotiations with FedEx revealed it would be in the best interest of both parties to agree to a lump-sum payment of FedEx’s financial obligations and terminate the lease agreements.

Under the terms of the proposed Termination Agreement:

- FedEx will cease its operations in the Sort Facility by October 30, 2016 and in the Maintenance Facility by November 21, 2016.
- Both lease agreements terminate effective November 30, 2016 at 11:59 p.m. (the “Early Termination Date”).
- By the Early Termination Date, FedEx will have removed all of FedEx’s personal property, repaired any damage caused by such removal and restored both facilities to their original condition.
- On or before the Early Termination Date, FedEx will pay the Airport Authority the total sum of $2,753,775.00, itemized as follows:
  - $924,500.68, being the balance of unrecovered costs the Airport Authority incurred in constructing the “2013 Addition”; and
  - $1,829,274.32, which amount is 75% of the “Rents” (as defined in the leases) estimated to be due under the lease agreements at the increased rate (plus a projected CPI increase of 1.9% per year) from December 1, 2016, through March 31, 2023.

It was moved by Malm, seconded by Kuhlman to approve the FedEx Termination Agreement and authorize the Executive Director to execute the document. **Action taken:** Motion carried unanimously.

3. 2017 Airport Operations Vehicle

Rick Audette has been soliciting bids for a replacement Operations vehicle. So far he has one bid of $28,561.18 from Nelson Auto Center (under the ND State Contract), well under the 2017 budgeted amount of $35,000. More bids will likely follow and the lowest bidder will be awarded the deal.

It was moved by Meland, seconded by Mock to approve the 2017 purchase of a vehicle for Airport Operations for an amount not to exceed $28,561.18. **Action taken:** Motion carried unanimously.

The meeting adjourned at 8:28 a.m.
